

OUR COMMITMENT TO RACIAL EQUITY

We recognize our society must confront and dismantle systemic and institutional racism, which causes marginalization, disenfranchisement, and discrimination.

We will consistently work to mitigate inequities by deliberately amplifying voices and presenting viewpoints of — and sharing power with — people and communities of color.

We will implement short- and long-term strategies to weave racial equity and inclusion into the fabric of our organization.

While our anti-racism work is ongoing, we will be intentional about achieving measurable change.
